PROFILE

Experienced Frontend Engineer with 4+ years of expertise in creating intuitive web applications. Skilled in frontend modern frameworks. A collaborative team player focused on delivering user-centric solutions.

WORK EXPERIENCE

Software Engineer II

C2FO

Mar, 2022 - Present

- Successfully migrated core React components library, preserving backward compatibility, and introduced a new theme ready for adoption.
- Collaborated closely with a cross-geography design team to ensure that feedback was effectively addressed.
- Played an integral role in multi-product initiatives by creating features such as in-app notifications using magic-bell that other teams can leverage.
- Created Datadog dashboards(funnels, charts) for tracking conversions.
- Migrated multiple deployment pipelines from Azure to GitHub Actions.
- Implemented third-party integration of NPS surveys with Qualtrics and successfully deprecated WebEngage.

Software Engineer I

C2FO

Mar, 2021 - Feb, 2022

- Developed a customized scheduler application tailored to manage email campaigns using Marketo.
- Implemented user profile image CRUD feature using NestJS and Leveraged (AWS) S3 to efficiently store and manage user profile images.
- Wrote comprehensive unit tests to validate the functionality of the application.

Software Engineer I

Reliance Jio

July, 2019 - Feb, 2021

- Developed JPB netbanking website from scratch in 3 months, which is integrated with various payment gateways.
<https://netbanking.jiopaymentsbank.com/>
- Significant contribution in merchant portal development and deployment to nginx server, it's used by Jio payment gateway merchants for checking payment history, initiating refunds etc on daily basis -
<https://www.jiomoney.com/merchants.html>
- Developed react native based cross platform applications , which can support mobile and web platforms with 60-70% code reusability

ACHIEVEMENTS

Grow mentorship program, C2FO

Jan, 2023 - Mar, 2023

Mentor of the quarter
